

CLOYD D. ARGANDO

JUNIOR PROGRAMMER / DATA AUTOMATION SPECIALIST

La Castellana, Negros Occidental | +63 930-354-0192 | cloudd000argando28@gmail.com

Portfolio: cloud0521.github.io/portpolio/ | GitHub: github.com/cloud0521

OBJECTIVE

Information Technology graduate with over 7 years of professional experience in data management, financial reporting, and back-office operations. Seeking to transition into a programmer or developer role where I can leverage my practical experience in JavaScript automation, Google Apps Script, API integrations, and relational databases to streamline workflows and build efficient backend solutions.

TECHNICAL SKILLS

Programming & Scripting: JavaScript (Advanced-Beginner), Google Apps Script, PHP (Basic)

Web Development: HTML5, CSS3

Databases: MySQL (Querying, Data Verification, Backend Troubleshooting)

API Integration: Experience connecting and extracting data from external APIs (including AWIN, Rakuten, and JIRA)

Tools & Platforms: GitHub, JIRA, Advanced MS Excel (Templates, Pivot Tables, Data Normalization)

PROFESSIONAL EXPERIENCE

Offers Analyst & Revenue QA / *Joinpiggy Inc.*

May 2019 – May 2026

- **Scripting & Automation:** Developed practical JavaScript and Google Apps Script solutions to automate repetitive data extraction and normalization tasks, significantly reducing manual workflows with high accuracy.
- **Database Management:** Utilized MySQL queries to audit large volumes of digital financial data, identify system errors, and troubleshoot backend technical issues.
- **API Utilization:** Handled data workflows and platform reporting by interacting with partner affiliate marketing APIs such as AWIN and Rakuten.
- **Technical Issue Tracking:** Managed internal development workflows and escalated system bugs using JIRA ticketing systems.
- **Data QA Reporting:** Compiled daily operational trends and tracked revenue discrepancies using Advanced Excel and Pivot Tables.

EDUCATION

Bachelor of Science in Information Technology

Graduated: 2019

Central Philippines State University – Moises Padilla Campus

- **Programmer of the Year Award** (Recognized for academic coding proficiency)
- **Best Thesis Award – Hardware Category** (Demonstrated strong hands-on problem-solving and systems integration)

PERSONAL PROJECTS & CREDENTIALS

- **Automated Currency & Revenue Normalizer:** Built a custom JavaScript and Apps Script tool that dynamically fetched exchange rates from an external API to standardize data formats across varying spreadsheet layouts.
- **Civil Service Second Level Eligibility:** Passed the Professional Level examination, demonstrating strong analytical and problem-solving capabilities.
